

Membership of the Institute of Cemetery & Crematorium Management

Background

As part of the induction of two new staff members. Cemetery management training enquiries have been made with SLLC and NALC. Unfortunately, both organisations are not undertaking training until 2023.

The Institute of Cemetery & Crematorium Management are running an online course spread over two half days on the 1 and 2 November. The cost of attending the course per delegate is £135 for ICCM members and £185 for non-members.

Benefits of corporate membership of the ICCM include reduced training fees, access to support, help and advice, best practice guidance and information, E-Newsletters updating members of current policies.

Recommendation

The cost of corporate membership is £95 per year. The cost of 2 non-member rates for training on cemetery management is £370 versus £270 member's rate. Membership would therefore not only be a saving of £5, it would also allow access to their member services for the year.

The committee are asked to recommend membership of the ICCM.

Prior to renewal, the committee would receive a report on the use of the membership, so consideration can be given to continuing the subscription.
